182B Tranquille Road
 Kamloops, BC V2B 3G1

Young people with disabilities tend to have a very hard time in Kamloops in being what they are, young adults looking to have fun. People In Motion understands the challenges that people with disabilities have in this town with limited services offered to have fun for young adults. That is why we are sending this survey out to the general public, to try and understand just how many people are interested in partaking in events offered by People In Motion.

All the information is confidential and is just used as statistical information in order to understand the number of available users of this service. We are also interested in which activities you are interested in participating in with a group setting.

Thank you for your time in filling out this information.

**Optional (contact information is for People in Motion use only and will remain private)*
